

## THE BEST AT WHAT WE DO.

Our vision at Rouge Valley Health System is to be the best at what we do. Through our two hospital sites – Rouge Valley Centenary, in east Toronto, and Rouge Valley Ajax and Pickering, in Ajax, we are fulfilling our mission of providing the best healthcare experience for our patients and their families.

### **MANAGER CARDIAC REHABILITATION AND SECONDARY PREVENTION Centenary Site & Lakeridge – Full Time**

This position will be responsible for the Cardiac Rehabilitation and Secondary Prevention services at RVHS, including Regional Program implementation and responsibilities consistent with the CELHIN Hub and Spoke model. Reporting to the Program Director, Cardiac and Critical Care Programs, you will also work with the members of the health team to promote teamwork throughout the RVHS Cardiac Care Program, Lakeridge Health Corporation and partners within the CELHIN.

We are seeking an innovative, self-directed, results-oriented professional who will demonstrate a visionary and collaborative leadership style. You will be responsible for the overall management of the human and fiscal resources required to meet the patient care needs and achieve the quality and patient safety outcomes of the regional cardiac rehabilitation and prevention program. You will have an integral role in strategic planning, program development, management of volumes, including wait times, and quality monitoring. The Manager will provide leadership and participate in the implementation of the Clinical Services Plan of the CELHIN for Cardiac Services. As a leader, you will facilitate and promote professional practice to provide excellence in cardiac care.

- Baccalaureate degree in Health Sciences with a commitment to continuing education; Master's Degree preferred
- Current professional certification in Ontario.
- 3-5 years' supervisory/managerial experience, including managerial accountability, in a Health Care Environment
- Demonstrated skills in change management, project management and human resources management, preference given to implementation of regional programs
- Minimum 5 years Cardiac Rehabilitation experience with preference given to those within a Regional Cardiac Care Program
- Understanding of Cardiac Care Network of Ontario, Canadian Association of Cardiac Rehabilitation (CACR) and Wait Times
- Demonstrated ability to support and initiate quality management activities
- Strong business and financial management experience
- Thorough understanding of utilization management and benchmarking
- Evidence of planning, analytical and organizational experience
- Exceptional leadership, communication and interpersonal skills
- Demonstrated pattern of good attendance
- Good computer skills, comfortable with Microsoft excel

As an innovative leader, we offer support for continuous learning in a caring environment of growth and excellence.
