

Helen Ziegler & Associates specializes in the recruitment of health care professionals to the Arabian Peninsula.

We are working with a brand new women & children's hospital in Qatar (an affluent and modern Arab country), which is scheduled to open in early 2013 with 350 beds. The hospital is looking for an experienced Manager of Cardiac and Non-Invasive Services to assist with project planning, education programming and commissioning activities of the cardiology service.

Married-status contracts offered and benefits include: accommodations; medical coverage; and return airfare. **Most importantly, the income earned is TAX-FREE.**

**Requirements:**

- Clinical certificate/diploma in echocardiography/cardiac ultrasound, a Bachelor's Degree in a health-related field and current North American certification (i.e. ARDMS, CARDUP, etc.) AND/OR
- Bachelor's Degree in Clinical Physiology (or relevant field) and current North American certification as a Clinical Physiologist (i.e. ASEP, CSEP, etc.)
- Master's Degree in healthcare or Management, with Invasive clinical experience in Electrophysiology and Structural Heart, is preferred
- Minimum of five years current experience in a similar position at a North American pediatric academic center
- Clinical experience should include pediatric cardiology (Interventional or Non Invasive)
